About Me

I am Cameron, a computer science student at Sunderland University and a Programmer. I always love solving problems and creating things I am passionate about. I work well in a team setting and i am keen to make programming my career!

Work Experience

- Stadium Of Light: Safety Steward (2023 - 2026)
I am foremost posted to ensure a high standard of customer satisfaction and customer experience, as well as to protect the safety of stadium-goers.
- University Of Sunderland: Pass Leader (2024)
I helped 1st year university students get acquainted with student life as well as teaching Computer Science in a more student lead and casual environment, this lead to a 70% increase in overall student confidence compared to the start of the year.
- University Of Sunderland: Student Ambassador (2025)
Representative for the University Of Sunderland during open days and other events.
- Apexon (Previously Infostrech): Fullstack Web Dev Intern (2023)
I worked alongside experienced web developers to sharpen my skills and learn many new tricks. My ability to program and problem solve significantly increased as a result of the internship.

Education

University Of Sunderland: Bsc Computer Science (2023 - 2026)
